

Let's Come Together.....

Dear Reader,

You may have many desires which you can eventually fulfill, but there are some children who have their wishes, but can't fulfill them as they hail from low socio economic background who cannot afford to get quality education.

Infotech Enterprises Charitable Trust (IECT) views itself as a facilitator of change in the society and with an objective as a CSR initiative has extended unstinted support for championing the cause of their upliftment.

Inspired by commitment of IECT in caring and sharing, many of our associates joyfully have joined the bandwagon by contributing their time and efforts in several of IECT projects. This is just a humble beginning and dawn of a new era.

Volunteerism helps in unearthing your camouflaged talent. We have the need to help the needy. So please come forward and volunteer. We need volunteers across the organization, who can bring in the difference in society and to support many new initiatives of IECT.

This issue of CSR E-zine attempts to highlight IECT projects and how our associates involvement in Infotech's CSR initiative has brought in smiles to underprivileged.

Miles To Go.....

Best Regards,
Editor

Celebrating Holi with ABC School Kids by Infotech-Noida associates
